

PLEASE do not implement any proposal that would lessen Indiana's Phone Privacy Law. Before the Law, I was receiving 4-5 calls a NIGHT from 4 pm until AFTER I went to bed. Usually I don't even have ONE now. I have paid \$6 a month for caller ID to try and thwart these insensitive clods and would still get calls even on early Sunday morning. Just because I have a phone shouldn't give every Tom, Dick, and Harry the right to harass me. Millions of Hoosiers have signed up for the no-call list. It has been a blessing. Please don't give our time (by not having to answer the phone) back to unwanted phone solicitors. PLEASE!!!!
